(21) Application No.202141042980 A

(19) INDIA

(22) Date of filing of Application :22/09/2021

(43) Publication Date : 01/10/2021

(54) Title of the invention : Smart Agriculture Using Sensors in Internet of Things (IOT)

(51) International classification :H04L 29/08  
(86) International Application No :PCT//  
Filing Date :01/01/1900  
(87) International Publication No :NA  
(61) Patent of Addition to Application Number :NA  
Filing Date :NA  
(62) Divisional to Application Number :NA  
Filing Date :NA

(71)Name of Applicant :  
1)Dr.K. Jaya Sankar, Professor & Principal / Department of ECE, Mahatma Gandhi Institute of Technology.  
Address of Applicant :Mahatma Gandhi Institute of Technology, Gandipet, Hyderabad, Telangana-500075. -----  
2)Dr.C. Ramesh Kumar Reddy, Professor / Department of CSE, Mahatma Gandhi Institute of Technology.  
3)Dr.S. China Ramu, Professor / Department of CSE, Chaitanya Bharathi Institute of Technology (A).  
4)Dr.S. Jeelani, Professor & Director/Virtual Learning Center, University of Hyderabad City Campus.  
5)Dr.Hanmant Sambhaji Fadewar, Assistant Professor/ Department of Computer Science, School of Computational Sciences SRTM University.  
6)Dr.A.Prema, Associate Professor/ Department of Computer Science, Vels Institute of Science Technology & Advanced Studies.  
7)Dr.P. Sathyanarayana, Assistant Professor/ Department of Mathematics & Computer Science, Osmania University.  
8)Dr.M.V.Ramana Murthy, Professor & HOD / Department of Mathematics and Humanities, Mahatma Gandhi Institute of Technology.  
9)Bhaskar Niraghatam, Assistant Professor / Department of Computer Science, Bhavan's Vivekananda College.  
Name of Applicant : NA  
Address of Applicant : NA  
(72)Name of Inventor :  
1)Dr.K. Jaya Sankar, Professor & Principal / Department of ECE, Mahatma Gandhi Institute of Technology.  
Address of Applicant :Mahatma Gandhi Institute of Technology, Gandipet, Hyderabad, Telangana-500075. -----  
2)Dr.C. Ramesh Kumar Reddy, Professor / Department of CSE, Mahatma Gandhi Institute of Technology.  
Address of Applicant :Mahatma Gandhi Institute of Technology, Gandipet, Hyderabad, Telangana-500075. -----  
3)Dr.S. China Ramu, Professor / Department of CSE, Chaitanya Bharathi Institute of Technology (A).  
Address of Applicant :Chaitanya Bharathi Institute of Technology (A), Gandipet, Hyderabad, Telangana-500075. -----  
4)Dr.S. Jeelani, Professor & Director/Virtual Learning Center, University of Hyderabad City Campus.  
Address of Applicant :University of Hyderabad City Campus, Abids, Hyderabad, Telangana-500001. -----  
5)Dr.Hanmant Sambhaji Fadewar, Assistant Professor/ Department of Computer Science, School of Computational Sciences SRTM University.  
Address of Applicant :School of Computational Sciences SRTM University, Nanded, Maharashtra-431606. -----  
6)Dr.A.Prema, Associate Professor/ Department of Computer Science, Vels Institute of Science Technology & Advanced Studies.  
Address of Applicant :Vels Institute of Science Technology & Advanced Studies, Pallavaram, Chennai, Tamil Nadu-600117 -----  
7)Dr.P. Sathyanarayana, Assistant Professor/ Department of Mathematics & Computer Science, Osmania University.  
Address of Applicant :Osmania University, Hyderabad, Telangana-500007. -----  
8)Dr.M.V.Ramana Murthy, Professor & HOD / Department of Mathematics and Humanities, Mahatma Gandhi Institute of Technology.  
Address of Applicant :Mahatma Gandhi Institute of Technology, Gandipet, Hyderabad, Telangana-500075. -----  
9)Bhaskar Niraghatam, Assistant Professor / Department of Computer Science, Bhavan's Vivekananda College.  
Address of Applicant :Bhavan's Vivekananda College, Sainikpuri, Hyderabad, Telangana-500094. -----

(57) Abstract :

Abstract Modern sensors are widely used in a collection of applications, including Artificial intelligence, navigation, mechanization, remote sensing, submerged imaging, and so on are some of the topics covered. Sensors that use advanced techniques like artificial intelligence (AI) have been increasingly significant in remote detection and smart farming in recent years. The Internet of Things (IoT) has made various types of equipment based sensor and devices available, resulting in very valuable instruments in the field of agriculture. AI-based sensors function as smart based sensors, and the Internet of Things (IoT) have made various types of equipment like sensor-based and devices available. The purpose of this article is to take a closer look at how sensors are smart and the Internet of Things is employed in different fields like remote sensing and different types of agriculture applications. Determining the soil condition and weather and crop monitoring, using robots for harvest and weeding.

To

The Principal,  
Bhavan's Vivekananda College,  
Sainikpuri, Secunderabad.  
Sir,

Sub: Permission to submit my paper for Patent-regarding.

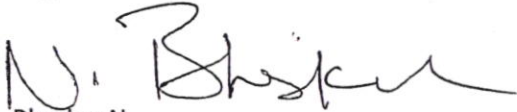

-0-

I, Bhaskar Niraghatam, working as Lecturer, Department of Computer Science in your college is willing to apply for a Patent on "SMART AGRICULTURE USING SENSORES IN INTERNET OF THINGS (IoT)" paper in Intellectual Property India. I will be publishing the paper with my research supervisor Prof. M V Ramanamurthy, Prof. & Head, Department of M & H, MGIT, Hyderabad.

I will update you the acceptance of my paper for patent.

Thanking you sir.

Regards.

Bhaskar N  
Lecturer, Dep. Of Computer Science,  
Bhavan's Vivekananda College
